

NEW CAVE IS FOUND

Named "Great Onyx" and Its
Air Will Cool a Fine
Hotel.

Brownsville, Ky., Sept. 15.—On Green river, two and one-half miles east from Mammoth Cave, on the farm of L. P. Edwards, there has been recently discovered the Great Onyx cave, which in its magnificent grandeur and beautiful formations rivals Mammoth Cave.

The "Great Onyx" has been explored for a distance of five miles and opened up to the public a greater part of the distance. The beautiful avenues branch out near the opening, and to traverse the route explored requires four hours. Louisville people will build a large hotel at the Great Onyx, and in summer the buildings will be kept cool by the air piped from the cave and the cave will be lighted by electricity.

SOLD HOUSE

On Methodist Church Lot For
\$700---To Be Torn Down.

The committee to dispose of the Anderson house, on the new lot of the Methodist church, sold the house Thursday for \$700. The heating plant was sold to J. M. Morris for \$250 and the house itself to C. L. Mayes. Esq. Morris will install the plant in his own house. Mr. Mayes will demolish the house and use the materials in some smaller houses to be erected on lots he owns on Wallace street, near the High School. They have two weeks to get the house off the lot and work was begun Thursday morning.

The house is a large two-story frame, originally built by J. M. Howe, about 30 years ago, and afterwards added to by J. H. Anderson. The cost of the house was probably \$6,000 to \$7,000.

LOSES PIG

Gordon Nelson One of The
Sufferers From Heat.

In reporting the loss of stock from heat at the State Fair, the Herald says:

"Two of the heaviest stock losers, incidentally, are boys, members of the Farm Boys' Encampment.

B. G. Nelson, Jr., of Christian County, whose father is the superintendent of the Farm Boys' Encampment, suffered the loss of a big-boned Poland China registered hog, was five months and twenty-three days old and weighed 280 pounds.

A Hampshire pig, weighing 300 pounds and owned by Johnny Woodward, of Jessamine County, died of the heat soon after it was unloaded from the car. The pig was seven months old, and, according to swine experts, stood a strong chance of capturing the sweepstakes.

Howell has a set of vocal organs that work whether carburettors do or not and it was imperatively necessary to get him to Madisonville, auto or no auto. Howell struck a bee line for the depot and his eloquent voice was heard two hours later 35 miles away.
